Sage 50 Accounting—U.S. Edition (Release 2026.0)

This product update covers all product solutions of Sage 50 Accounting (Release 2026.0).

What's new and product improvements

	Pro	Premium	Quantum
AR Automation			
Automate your accounts receivable workflows With AR Automation for Sage 50, you can share invoices with customers, send payment reminders, and automatically collect payments. Improve your business cashflow, reduce manual admin work, and get paid faster. ¹	Yes	Yes	Yes
Payroll updates			
Super catchup You can now specify if employees between the ages of 60 and 63 are eligible to make super catchup contributions. ²	Yes	Yes	Yes
Special fields We've expanded the number of special fields that can be included for allowances and additional withholding. ³	Yes	Yes	Yes

¹AR Automation requires an active cloud subscription.

²You need a service plan that includes payroll.

³See reference 2.

Resolved issues

	Pro	Premium	Quantum
Banking improvements			
Expanded banking integration Sage 50 now supports expanded banking integration, enabling seamless and secure connections to a wide range of financial institutions.	Yes	Yes	Yes

Resolved issues

These issues have been resolved for Pro accounting and higher:

- We fixed some webmail installation errors, so you can now use Microsoft 365 Outlook to send emails from Sage 50.
- We removed outdated article references from our obsolescence messaging to make it clearer and more informative.
- Previously, serial numbers could be difficult to locate. We've resolved this by auto-populating the serial number during Sage 50 installation.
- We removed outdated links for retired Sage One and SBCA integration.
